Our Services

- **Cloud-based ERP applications** for **Private** & **Government** Schools

- **Cloud-based ERP applications** for **B. Ed.**, **D. El. Ed.**, & **Pharma** Colleges.

- **School Diary, School Admin** apps for Management, Parent-Teacher communication, Live Classes, etc.

- **School Exam** app for conducting online examinations

- **Admission App** for Online Admission Management

- **School Attendance** for automated attendance system

- **School Driver** for school vehicle tracking

Products & Services

We are committed to providing software services of assured quality through solution leadership and continual process improvement, ensuring customer satisfaction.

Our Services

- End to end **automation** of **School** & **College** processes

- Designing & development of **Web/Android** applications

- **Online Payment** solutions to collect Fee & Other charges

- **RFID or biometric** based **automatic attendance** system

- **Social Media Campaigning** for educational institutions

- Designing of Dynamic/Static **CMS based Website**

- Designing of **Logo / Brochure** etc.

- Providing **ID Cards, Bulk SMS** and other services

Products & Services

We are committed to providing software services of assured quality through solution leadership and continual process improvement, ensuring customer satisfaction.

Problems faced by the Management…

| Productivity & Time Management	Communication Gap	Fees & Account Management	Managing Classrooms	Enrollment & Admission	Students' Safety & Security
Using different platform for different processes requires more time	No easy-to-use platform for communication between parents and teachers	Difficulty in keeping records of finances and track fee collections and expenses	Difficulty in managing attendance, leave, assignments, marks, etc.	Difficulty in achieving the targets set for enrolment and admission	Difficulty in managing security and safety of students in and out of campus

Solution to these issues provided by Us…

- ✅ Cost effective, cloud-based School Management ERP Application

- ✅ Specially designed for Schools keeping in mind their requirements and budget

- ✅ User-friendly and well organized, anyone with basic computer knowledge can efficiently use the application

- ✅ Able to access student, staff, fee, accounting data fast, saving valuable time and reducing workload.

- ✅ Highly flexible platform, customizable as per requirement

- ✅ Application is upgraded and updated continuously as per needs

- ✅ Training provided by physical visit/online as well as in built manual for easy operation of the application.

- ✅ Dedicated Customer support via calls, emails
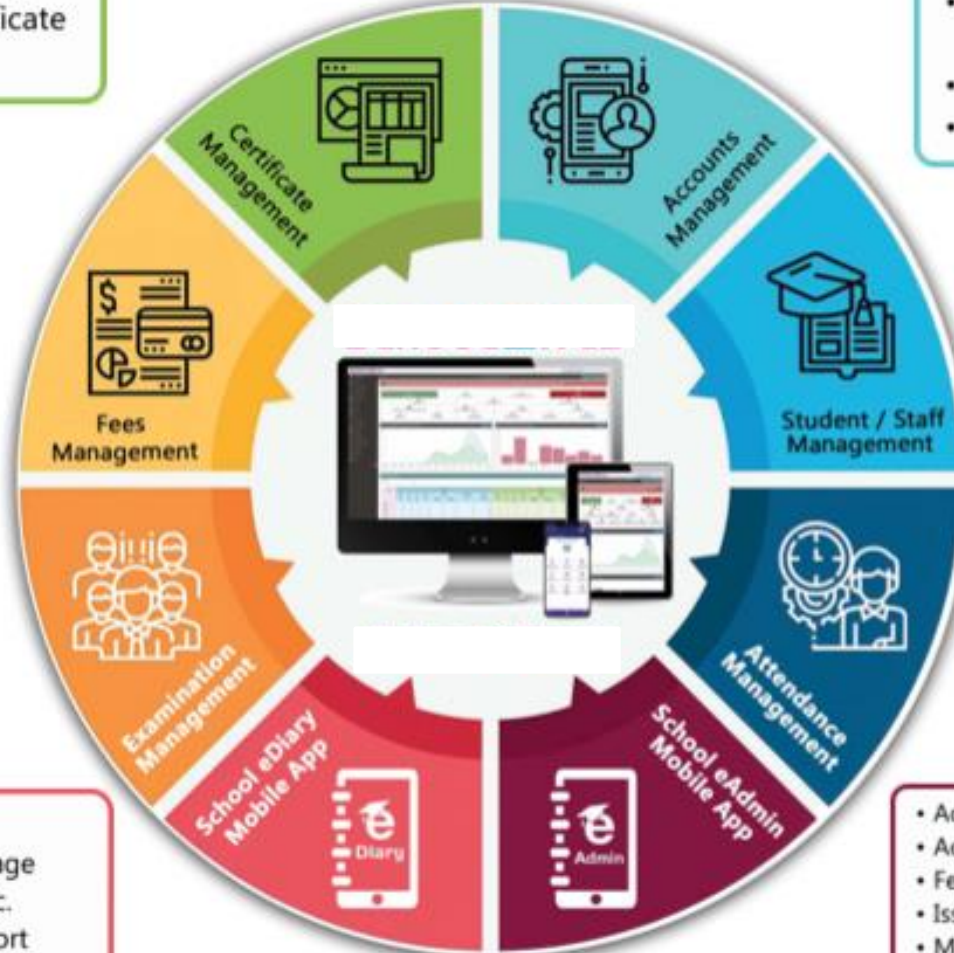

Making School Management

SIMPLE | EASY | SECURED

- Instant system generated certificates
- Transfer / School / Character certificate
- Other custom certificates

- 100% customizable module
- Online / offline fees payment
- Due fees reminder
- Payment receipt generation
- Automatic entry in Accounts

- Marks entry from desktop or smart phone
- Customizable colourful marksheets
- Generate Admit card
- Generate Merit list
- Instant marks summary in Parent's App

- Staff & Parent Mobile App
- Notice board in multilanguage
- Homework & Class diary etc.
- Marks entry, Academic Report
- Attendance summary, Holidays list

Certificate Management
Accounts Management
Fees Management
Student / Staff Management
Examination Management
School eDiary Mobile App
School eAdmin Mobile App
Attendance Management

- Customized ledgers
- Different transaction (receipt, payment, contra)
- Income expense report
- Staff salary management

- Online / Offline Admission
- Enter data once & Use it across the Modules of ERP
- Class register
- Auto upgrade / promote
- Student information
- Export data to pdf / excel
- Staff details

- Role based assignment
- User Management
  - Admin
  - Staff
  - Students
- Visit Log

ONLINE ADMISSION

- Online Admission wit OTP based verification
- Data automatically added on class assignment
- Online Paymnet of charges can be done

CONVEYANCE MANAGEMENT

- Live location of the buses
- Route assignment
- Driver & Vehicle Information
- Transport charges collection based on various routes and stoppages
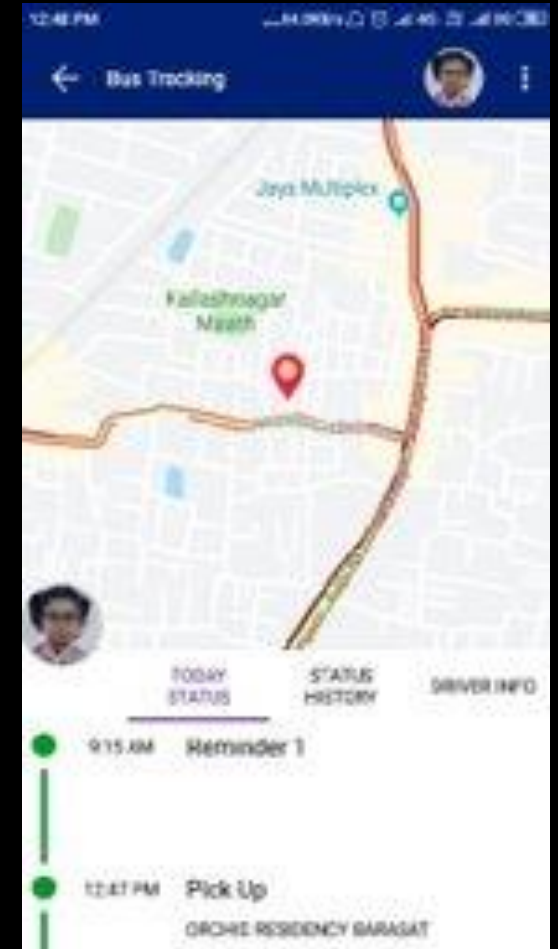

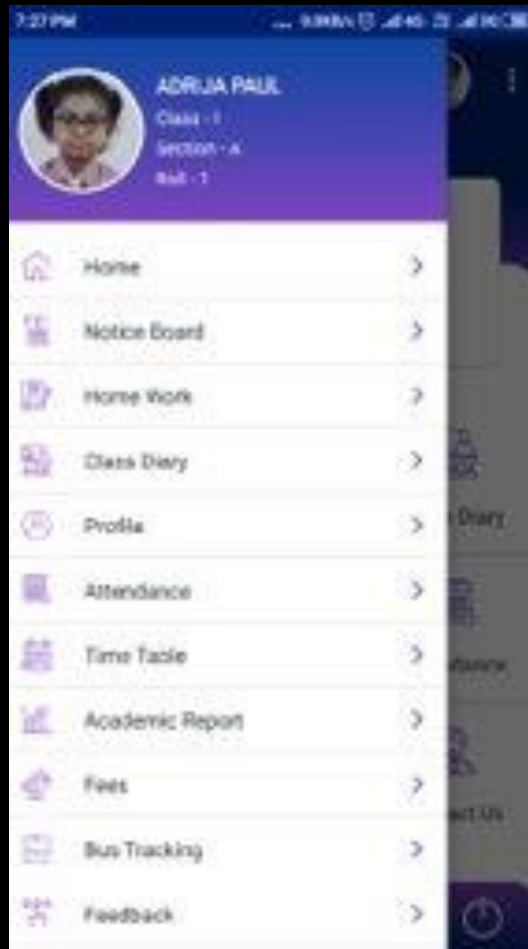

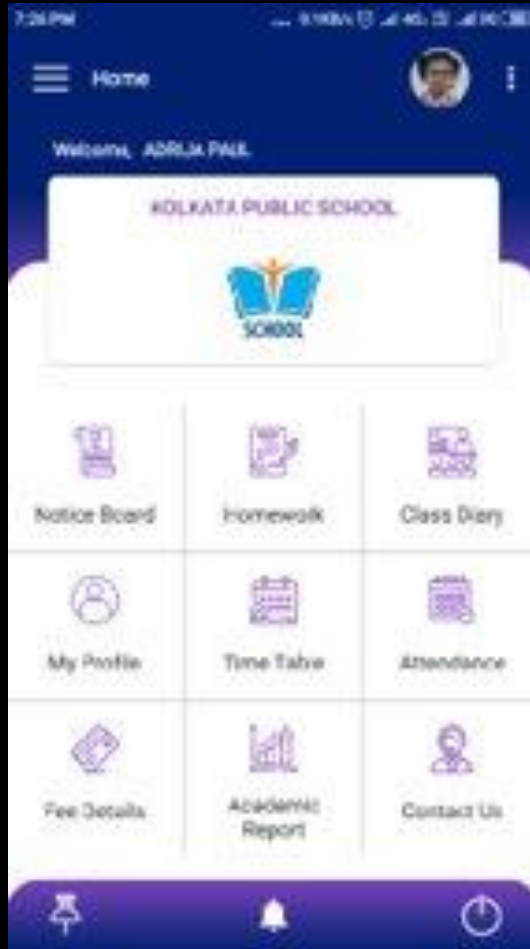

DEDICATED SUPPORT

- Module wise user manual available
- Well trained executive for support
- Support provided over Call / Mail / Chat / WhatsApp

CUSTOMIZATION

- Easily Customizable
- Integration of Automatic Attendance / Online Payment
- Other modifications as per the requirement of the customers

Glimpse of our app screens

Features of School Diary & School Admin

LIVE CLASS
Live Class can be taken through Google Meet or Zoom Meetings, automatic attendance capture, scheduling and joining classes from the app, excel report for better monitoring

NOTICE BOARD
Instant alerts on any circular/notice from school. Students can view, like, download attachments, comment, and pin the notices.

HOMEWORK
Homework given by teachers can be viewed on the click of a button with due date, description, upload file and option to mark it as done.

CLASS DIARY
Class diary added by teachers is just a click away on your mobile with date, description, and option to download attached files.

PROFILE VIEW
View complete profile of the student including photo, parent details, address, and emergency contact number.

ATTENDANCE
Instant notification and detailed view of the student attendance in the current academic year including presents, absents, late and leaves.

APPLY FOR LEAVE
Parents & Teachers can apply for leaves for single or multiple day with subject, details, and attachments.

DAILY FEEDS
Students can access general updates, photo galleries, polls, links, etc. They can also share the photos to social media accounts.

Features of School Diary & School Admin

ACADEMIC CALENDAR
Remain updated about the days on which classes/exams will be held, holidays/celebrations will be there, in the form of the academic calendar.

TIMETABLE
Students can have a look at their daily/weekly timetable easily from the application without wasting time in searching for the same.

ACADEMIC REPORT
Parents can see the term-wise and subject-wise marks statement of their ward thereby keeping a track of their academic performance.

FEE PAYMENT & SUMMARY
Parents can peek through the paid fees' records. Pay fees online hassle-free as well as see due fees information using the app.

BUS TRACKING
Student safety enhanced with real-time tracking of school bus from mobile app. Parents can access vehicle location and other details. Add-on feature, needs to be subscribed separately.

ALMANAC
Remove your paper-based School Diary with the digital eDiary by adding the various rules and regulations and other important information in the Almanac module.

ACADEMIC LESSON PLAN
Teacher can add their academic lesson plan details and keep a track of the lessons to be taught and students can also view the topics, attachments

FEEDBACK
Parents can give their valuable feedback along with attachment about school if the option is enabled by the school admin.

Advantages over other applications…

- ✅ We have been exclusively working on ERP for the education sector enabling us to gain extensive

- ✅ knowledge about the requirements of the clients.

- ✅ The fee collection modules has been tailored as per School's requirements to maintain their fee record.

- ✅ We can customize the application as per the requirements of the client.

- ✅ SSL secured for better security of the user data like password, payment details and other data

- ✅ Experienced trainers, customer support team for better in-depth solutions to the issues faced by the users.

- ✅ Affordable & flexible payment options either yearly or monthly based on the convenience of the users

SECURED CHILD SERVICES

END TO END SCHOOL MANAGEMENT SOFTWARE

Handles school management in terms of **decision making, student resource management, communication, annual institutional operational planning , attendance records, performance appraisals, uploading marks and all other student and institution related activities**

MOBILE BASED APPSERVICE

Real time cloud based mobile system Works on **2G** and **3G** network and **PC version**

COLLABORATIVE

Provides a Structured Information Exchange Environment for **students, teachers, parents** and **school administration**

WHY CHOOSE SECURED CHILD SERVICES?

Traditionally tedious processes like attendance taking, report generation, generating exam notices, school bulletins, communicating campus news, events have been done manually and hence are error prone

Existing systems in educational institutions merely enable academic interactions between students and pupils with no centralised student information management system

Hence there is a need for a web based solution which performs not only as an intelligent student information management system but also as an overall school management system

WHY CHOOSE SECURED CHILD SERVICES?

DIGITAL CANADA MISSION

1. Enables "student self service" to perform basic administrative functions via simple user friendly app service

2. Ensures data integrity security and privacy

3. Simplified work processes and procedures

4. Flexile to meet changing business processes

5. Data source integration and processing through a "single function"

6. 24 x 7 support and service including training and implementation

Management of student information	Management of administrative functions
Timetable and attendance	Student resource management
Maintaining exam gradebooks	Workload management
Uploading mark sheets	Annual operational planning
School Calendar / Bulletins/ Notices /Events	Strategic planning and communication
Examination management	Evaluating staff performance

A SNAPSHOT OF MODULE AUTOMATION

KEY BENEFITS

- Advanced m-PIN logic system to ensure data

- Security

- Easily accessible and available anywhere

- Multi language messaging system
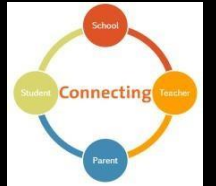

- 100% data delivery guarantee

- Advanced parent and school message escalation system

- Facilitates easy communication and query resolution

- Two parent ids for a single student for simultaneous access to both father and mother

- But school pays charges only for single student

- Different level of users
  - ✓ Administration
  - ✓ Teacher
  - ✓ Parent
  - ✓ Student

- Real time cloud based mobile system working on 2G and 3G

- Eliminates manual data operations

- Simple billing system to help school monitor and track payments

- Simple registration system

- Easy to use interactive user interface

DIFFERENT ROLE TYPES

TEACHERS

✓ Can communicate with whole school, classes, sections or student groups

✓ Real time attendance system

✓ Send class work, exam notice, announcements with attachments

✓ Upload answer sheets

✓ In app call facility to parents in emergency

✓ View daily roster

PARENTS

✓ Informed about attendance status as soon as school starts

✓ Update latest information(contact, address, etc) easily

✓ Can fill and submit school forms easily

✓ Can access class work, student activity anywhere anytime

✓ Can communicate with school

ADMINISTRATION

✓ Can block and open app for users

✓ Can access up to date parent and student information anytime anywhere

✓ Generate customized reports

✓ Easily publish forms

✓ Get real-time staff attendance status

✓ Define and manage parent school communication system

OVERALL ADVANTAGES

Increased administrative efficiency

Maximization of school resources

Effective time management

Service quality improvement

Better accessibility to information

Advanced security and regulation

Addon Feature – Automated Attendance

HIGHLIGHTS:

- ✓ No more wasting of time to keep record of students who are present, late or absent. Instant data updated to various stakeholders instantly along with notification on parent app

- ✓ Ensures the child's safety using Cloud RFID tracking for monitoring students' attendance in school premises

- ✓ The system ensure that students are under surveillance right from the time they enter the premises

- ✓ As soon as the student enters or departs the school gate and punches the RFID card, notification will be sent to the parents on their School eDiary mobile app

- ✓ Teachers & Admin can get the updated data instantly on their School eDiary app, there is also a well-developed web-based interface, which is capable of real time monitoring & reporting.

- ✓ It is one of the most efficient and cost saving Online Student Attendance System for Schools

Addon Feature – School Bus Tracking

✓ Ensures the Child's safety using School Bus Tracking system for monitoring school busses which are in transit to school

✓ With the help of our School eDriver app, the real-time location of the school bus can be tracked

✓ Parents & Admin can remain updated with the current location of the bus on their School eDiary mobile app

✓ Parents will get notification when the child is picked up & dropped off from home/school

✓ Parents can remain updated with the info about the Bus, Driver & helper as well as the emergency contact number of school right from the application

✓ The driver can manage the list of students availing the transport facilities and mark them as picked or dropped

✓ The driver remains updated with the contact number of the parents as well as the emergency contact numbers of school

✓ Live streaming of the inner view of the bus can also be added at an extra cost using IP cameras.
